📄 CYBER LAW MASTER REVISION NOTES (ALL SLIPS COVERED)

(SPPU – CDS Cyber Law Lab)

⚖️ 1. INFORMATION TECHNOLOGY ACT, 2000 (CORE LAW)

The Information Technology Act, 2000 is the primary law in India that deals with cybercrime, electronic records, and digital transactions. It provides legal recognition to electronic data and defines offenses along with punishments.

◆ Important Sections (Very Important for Exam)

Section 43 – Unauthorized Access

- Covers:
  - Unauthorized access to computer systems
  - Data theft or downloading without permission
  - Damage to systems or networks
- Provides **compensation** to victims

Section 66 – Computer-Related Offenses

- Applies when actions under Section 43 are done **dishonestly or fraudulently**
- Punishment includes:
  - Imprisonment
  - Fine

Section 66C – Identity Theft

- Using another person's:
  - Password
  - Digital signature

    - Identity credentials
- Common in:
    - Fake accounts
    - Credential theft

Section 66D – Cheating by Impersonation

- Covers:
    - Phishing attacks
    - Online scams
    - Fake websites
- Very important for:
    - Banking fraud
    - E-commerce scams

Section 66F – Cyber Terrorism

- Involves:
    - Attacks on government systems
    - Threat to national security
- Punishment: Severe (can include life imprisonment)

Section 72A – Breach of Confidentiality

- Unauthorized disclosure of personal data
- Applicable in:
    - Data breaches
    - Privacy violations

Section 79 – Intermediary Liability

- Applies to:
    - Social media platforms
    - Websites
- Provides **safe harbour** if:
    - Platform follows rules
    - Removes illegal content

📜 2. OTHER IMPORTANT LAWS

Copyright Act, 1957

- Protects:
  - Digital content
  - Software
  - Movies, music, books
- Prevents piracy

Consumer Protection Act, 2019

- Protects consumers from:
  - E-commerce fraud
  - Fake products
- Provides:
  - Refund
  - Compensation

Indian Penal Code (IPC)

- **Section 499/500** → Defamation
- **Section 506** → Criminal intimidation

POCSO Act

- Protects minors from:
  - Cyberbullying
  - Online exploitation

💻 3. TYPES OF CYBERCRIMES (USE IN ANY ANSWER)

◆ Phishing

- Fake emails or websites used to steal data

◆ Social Engineering

- Manipulating people to reveal confidential info

◆ Data Breach

- Unauthorized access to sensitive data

◆ Identity Theft

- Using someone else’s identity

◆ Cyberbullying

- Online harassment or threats

◆ E-commerce Fraud

- Fake websites, payment scams

◆ Online Piracy

- Illegal downloading/streaming

◆ Ransomware

- Malware that locks data and demands money

◆ **Cyber Terrorism**

- Attacks on national infrastructure

⚠ 4. CAUSES OF CYBERCRIME

- Lack of awareness
- Weak passwords
- Poor security systems
- Human error
- Lack of policies
- Rapid digitalization

📉 5. IMPACT OF CYBERCRIME

- Financial loss
- Data theft
- Privacy violation
- Reputation damage
- Mental stress
- National security threats

🛡 6. PREVENTION & SECURITY MEASURES

◆ **Technical Measures**

- Strong passwords
- Multi-Factor Authentication (MFA)
- Data encryption
- Antivirus & firewalls
- Regular updates

◆ **Organizational Measures**

- Access control (RBAC)
- Backup systems
- Incident response plan
- Security monitoring

◆ Human Measures

- Employee training
- Awareness programs
- Phishing simulations

🏢 7. INFORMATION SECURITY POLICIES

◆ Access Control Policy

- Restricts who can access data

◆ Password Policy

- Strong passwords
- Regular updates

◆ BYOD Policy

- Controls use of personal devices

◆ Data Protection Policy

- Ensures privacy and security

◆ Incident Response Plan

- Steps to handle cyber attacks

◆ **Security Standards**

- Technical rules for system protection

📊 8. CASE STUDY FORMAT (VERY IMPORTANT)

Use this structure in every case study:

1. Introduction
2. Scenario description
3. Issues identified
4. Legal provisions applied
5. Investigation process
6. Punishment
7. Conclusion

👮 9. LEGAL ACTION STEPS (WRITE IN MANY QUESTIONS)

---

1. Collect evidence (screenshots, logs)
2. Report to platform
3. File FIR
4. Use cyber crime portal
5. Approach court
6. Claim compensation

🌐 10. SPECIAL TOPICS

◆ Intermediary Responsibility

- Platforms must remove illegal content

◆ Data Privacy Principles

- Consent
- Data minimization
- Purpose limitation

◆ E-commerce Protection

- Verify websites
- Consumer court

◆ DRM (Digital Rights Management)

- Prevents piracy
- Controls content access

□ 11. UNIVERSAL ANSWER STRUCTURE (USE IN EXAM)

◆ 1. Introduction

Define topic + IT Act

◆ 2. Explanation / Scenario

◆ 3. Issues

◆ 4. Legal Provisions

◆ 5. Solutions / Steps

◆ **6. Conclusion**

🏁 FINAL CONCLUSION

Cyber law plays a crucial role in maintaining security in the digital world. Proper awareness, legal knowledge, and security practices help prevent cybercrime and ensure safe use of technology.

💀 FINAL ADVICE (IMPORTANT)

☞ Revise this 2–3 times = FULL PREP
☞ Don’t memorize slips — understand concepts
☞ Write answers using structure
